NEW TRACK AT NEW ORLEANS.

Committee Appointed to Select a Site for Another Winter Course -Racing Situation in

Some of the best-known turfmen in the West came here to attend yesterday's meeting. Frank Fowler, Roger Sullivan and Judge Helm, a well-known Cincinnati lawyer, came over from the Queen City to look after the Newport track's interests. George C. Bennett, the Memphis owner and bookmaker, is a heavy stockholder in the Newport track. Cumberland Park of Nashville was represented by May Overton, one of the leading citizens of Tennessee. Walter O. Parmer came over from Nashville with Mr. Overton. He is the secretary of the Highland Park and Fort Eric tracks and represented both of them at the meeting. C. A. Tilles spoke for Little Rock and Delmar.

the meeting. C. A. Tilles spoke for lattice Rock and Delmar.

Chicago Tracks Threatened.

Anselo Cella of Chicago was in consultation with the visiting turfmen most of the day. Mr. Cella is the father of Louis A. Cella, and owns the ground on which the new Delmar track is being constructed. Mr. Cella is oredited with being in thorough touch with the racing situation in Chicago. There is no law against racing in Illinois, but bookmaking and poolselling are prohibited in the State.

Notwithstanding this fact, the bookles have been operating resularly every summer on the Chicago tracks. Mr. Cella doubtless explained to the visiting turfmen why the Cook County officials Isil to suppress betting on the Chicago tracks. When the Western Jockey Club announced that it would disqualify all horsemen who took part in racing over tracks that

that it would disqualify all horsemen who took part in racing over tracks that refused to submit to its authority, the opposition declared that if this rule was carried out, every effort would be made to suppress betting on the Chicago tracks. If any move of this sort is made, Angelo Cella will ro doubt figure prominently in the undertaking.

the undertaking.
Racing in Tennessee. May Overton of Nashville is behind the bill to restrict racing in Tennessee. He had a bill introduced in the Tennessee bill to restrict racing in Tennessee. He had a bill introduced in the Tennessee Legislature this week restricting racing in the State to ten days in the spring and ten days in the fail. If this bill becomes a law it will interfere seriously with the Memphis spring meeting, which is to last twenty-one days. Memphis conflicts with Nashville. This fact and the Western Jockey Club's disqualification rule has stirred up the Nashville folks. Mr. Overton states that his bill has been indorsed by the leading horse breeders of Tennessee, nearly all of whom, he says, are upposed to the Western Jockey Club's disqualification rule. Mr. Overton's bill was indorsed by the Commercial Club, the Retail Merchants' Association and other leading organizations of Nashville.

Walter Parmer, who is the secretary of the Highland Park and Fort Erle tracks, predicts great sport on the Canadian circuit the coming season. George Hendrie, a son of William Hendrie, the owner of Martimas, is the leading financial backer of Mr. Parmer's two tracks. Mr. Hendrie authorized Mr. Parmer to attend yesterday's conference.

"We shall have some great racing at Fort

thorized Mr. Parmer to attend yesterday a conference.

"We shall have some great racing at Fort Erie during the Pan-American Exposition," said Mr. Parmer. "Our fourteen stakes attracted 980 entries. The best class of horses ever seen on the Canadian circuit will receither the coming season. Highland Park's stakes have also filled well, and we anticipate a successful season of sport at the Detectit track."

In this connection the following agreement, which was signed by horsemen now at Cincinnati, and which was forwarded by them to Thomas P. Hayes, vice president of the Horsemen's Protective Association at Memphis, is of interest:

Tizona, an 8-to-1 shot, won the first easily. Moon Bright, the favorite in the second, had no speed, and Sinii beat out Princess Titania by a nose.

Theory, the only first choice to win, landed the High-Weight Handicap in a drive. Immodel won the fifth easily.

In the hurdle, Olinthus, who was a pronounced favorite, had no speed and Tom Sharkey managed to beat May Boy a head. The latter was as good as 60 to 1. The horses are being moved to Ingleside preparatory to the reopening Saturday.

CARTER HANDICAP WEIGHTS. Forty-Nine Horses Entered-Intrusive Carries Top Impost.

REPUBLIC SPECIAL.

New York, March 14.—Weights for the Carter Handicap, to be run on the opening day of the Aqueduct meeting—the opening day of the Aqueduct meeting—the opening day of the racing season in this State—were sent out by Handicapper Vosburgh last night. This handicap is run over the seven-furlong course at Aqueduct, which is about 100 feet short of seven furlongs. Intrusive, now racing at New Orleans, has been honored with the top weight of 126 pounds, and the 3-year-old Balloon is at the bottom of the list, with 90 pounds. Essentially the Carter Handicap is a sprint, and in it are engaged many sprinters of class as well as horses who are capable of negotiating a distance of ground.

Among the good horses to whom weights have been allotted are: Intrusive, it slobals, flox, Ogden, Modrine, Maximo Gomez, Trumpet, Charentus, Sidney Lucas, Unmasked, Saoducee, Magnificent, Wait Not. Motley, Kamara, Belle of Lexington and All Gold, in the all-nged division, and Demurrer, Outlander and The Rhymer in the 3-year-old division. With ten or twelve of these horses going to the post the Carter Handicap of this year should be the best race ever run over the course.

After Intrusive, the official bandicapper fancies Heliohas and Box, to whom he assigns 121 pounds each. Ogden has 122 pounds, Moorine 129, Maximo Gomez 117 and Trumpet and Charentus 115 pounds each. Intrusive has an abundance of speed and is up to any weight, but whether he will be able to carry his impost to victory in the field he will meet is a question on which racegoers are sure to be divided. Ogden is the class of the party, and if he were worth taking care of at all, it would seem that he ought to have the post of honor, so far as the weights are concerned. But Ogden has had a season in the stud, and the horse that comes back to his best form after a season in the stud is a rare specimem

form after a season in the stud is a rare specimen.

At the weights, Charentus and the mares Motley, 110, and Kamara, 149, undoubtedly are three of the most dargerous broses in the race. It may be that the 3-year-olds, Demurrer and The Rhymer, also will go well. Charentus does not like weight, but he does like the track, and has run some of his best races over it. He is a hardy little horse and takes the sharp turns at Aqueduct as if he were running straightaway. Motley is a stable mate of Oglen, so that with this pair, Eilly Lakeland looks to have a good hand to draw to. Kamara, when right, has a great turn of speed, and the distance sults her.

Condition is bound to play a big part in the running of the Carter Handicap, and there is no preparation like that of actual racing. It is well-nigh impossible to fit some horses by private work or to gauge their performances by such work. The Carter candidates who may be raced at Bennings will have an advantage over the horses making their first start of the year at Aqueduct. Nothing is more certain than that the field will be of good size, with the prospect that the race will be an extremely open-betting event.

CAHILL'S POSITION. Ferms Upon Which He Will Enter the Great Four-Cornered Race.

REPUBLIC SPECIAL.

BEPUBLIC SPECIAL.

Lexington, Ky., March 14.—"Uncle David"
Cahill, owner of Charley Herr, to-day made clear his position on the proposition of Andy Welch for a great four-cornered race at Hartford between his horse, The Abbot, Boralma and Cresceus.

He said that he would be unwilling to race his horse twice in the same week against horses of that class unless all started in each race. In case it was intended to race Charley Herr against Boralma and Cresceus against The Abbot, the winner to race three days later, he would be unwilling to enter.

Mr. Cahill comes forward with a proposition of his own, which practically meets that of Millionaire Thomas W. Lawson of Boston, the owner of Boralma.

"I propose," said Mr. Cahill, "for each starter to put up \$19,000, leaving the stake open for any horse in the world. Then let the associations of the Grand Circuit

open for any horse in the world. Then let the associations of the Grand Circuit bid on the race, the one offering the most money to get it. I would then propose, if more than four horses entered, to divide the stake into four moneys, if only four to have three moneys. In case the others were not willing to enter I am willing to match my horse at \$10,000 a side against Boralma, I think this a fair proposition, and as I am the only poor man in the lot of owners, no one should object to the amount named."

SOLE OWNERS OF OAKLAND. Williams and Burns Will Continue the Turf War.

the Turf War.

REPUBLIC SPECIAL.
San Francisco, Cal., March 14.—Thomas H. Williams, Jr., and Colonel Daniel M. Burns are now sole owners of the Oakland track, and it would appear as if a settlement of the turf war is further off than ever before. The deal by which all stock passed into the hands of Messrs. Williams and Burns was closed last night at a meeting held in the rooms of the California Jockey Club. They secured the stock held by ex-Police Commissioner M. A. Gunst and a number of minor stockholders.
Gunst, at the request of Williams, remains as director, holding enough stock to legally qualify him president. Williams stated that his offer of \$600,000 for Tanforan and Ingleside still remains open, but that he is not willing to agree to a compromise. He said the fight would be to a finish, and that eny overtures made for the settlement of the present difficulty did not come from him.

him.

The latest development in the situation shatters any hope there may have been for a settlement of the turf war at present.

There has been considerable talk made by local papers, which boost the Oakland track, about the transfer of horses and increase of patronage across the bay.

GREAT TROTTING RACE PLANNED.

Cresceus, The Abbot, Charley Herr and Boralma to Contest for \$25,000.

Toledo, O., March 14.—It is proposed to pit Cresceus, The Abbot, Charley Herr and Boralma against each other and settle the question of which is the fastest trotter in the world. A. J. Welch has offered to bring off the big sweepstakes race at Hartford, Conn., next summer. The conditions will be \$1.259 a corner, with \$25,000 added.

The first races will be on Labor Day, with Cresceus against The Abbot and Charley Herr against Boralma.

George Ketcham, owner of Cresceus, said: "I will enter Cresceus in every class and stake to which he is eligible through the Grand Circuit this year." and Boralma to Contest for \$25,000.

LANGHORN A STAR.

Mr. Brooks Said She Would Be a Crack in Any Company if She Would Ride "Rationally."

REPUBLIC SPECIAL. Alken, S. C., March 11.-The ladies' polo games have come to be a regular thing in Aiken. Each game shows the players more expert, and if all of them would accept the sensible way of riding astride, as yet adopted only by a few, more life would be put into the game. The game of polo this morning was a success in every way. The air was fine, a big crowd of cottagers was present and one or two new players were trying their hand at the game, but with great credit.
On the line-up the blues were: Miss

Phyllis Langhorn, captain; Mrs. R. L. Stevens, Mrs. Robert G. Shaw and Mr. R. The reds were: Mrs. Thomas Hitchcock, captain; Mrs. George P. Eustis, Mrs.

N. K. Hayes and Mr. John Sanford, Mr.
"Reggle" Brooks acted as referee.
Mrs. Hitchcock and Mrs. Shaw rodo astride, the other ladies using the regulation side saddle. Doctor Valentine Mott was on hand, big Red Cross tag adorning his trap, ready to render first aid to the injured, but, fortunately, his services were not needed.

injured, but, fortunately, his services were not needed.

Miss Langhorn and Mrs. Hitchcock, the respective captains, were easily the most expert players of the ladles, and Miss Langhorn's riding side saddle was at times very daring. One of the men present, himself a polo player, was heard to remark that if she would adopt the "rational" way of riding she would be considered an expert. In the last of the games she did some phenomenal work.

Another good rider was Mrs. Hayes. She has not yet mastered the mallet, and this is her second attempt at the game, but when she does get control of it she will be a star player. The game ended in favor of the blues by a score of 2 to 3.

A big party went out to the Dove Drive after the polo game, although the place selected was about eight miles from town, on the Tyler farm. There was a crowd in carriages and on horseback, and, as usual, the affair ended up with a luncheon. With so much shooting on all sides it is strange that ro accidents have happened, the nearest approach to one being this season, when Mr. Woodbury k. ie got a few shot in the neck.

Mrs. Hitchcock is a crack shot. She was a pioneer at the sport, but there are several good shots among the laddes this season, notably Mrs. Edward Smith and Mrs. R. L. Stevens.

SULLIVAN SAYS HE WAS BADLY TREATED.

Insists That a Lack of Good Faith Keeps Him From Meeting McGovern.

REPUBLIC SPECIAL New York, March 14.-"Dave" Sulliva does not think he received fair treatment from either Sam Harris, manager of Terry McGovern, or Manager Jim Kennedy the Twentleth Century Club of San Francisco, when they turned him down and signed articles for McGovern to meet Oscar

Gardner in San Francisco on April 30. Sullivan is very much chagrined over his failure to get on a match with the champion, and says that the whole thing was prearranged, and that Harris and Kennedy never intended to give him the match with

prearranged, and that he match with never intended to give him the match with McGovern.

Sullivan is at a loss to understand why Kennedy called his match off, after agreeing upon Tim Hurst as referee.

Sullivan has in his possession a telegram from Kennedy ziming that Hurst would be satisfactory to the caub; but when he was prepared to citinen the match Kennedy would have no one but Charley White.

"When we left Louisvine," said Sumvan, "It was understood that I was to meet McGovern before the Twentieth Century C.ao and that we were to post forfers to cinch the match. I was prepared to five up to my conditions Tuesday, but Kennedy changed his mind about Hurst as referee, and would have no one but White.

"I could not consent to White, but was willing to have the match take place at some other club than the Twentieth Century. I am still ready to make a match with McGovern at any time."

Sam Harris does not take the same view of the situation as Sullivan. Harris is sure that he did all in his power to bring about the match with Sullivan, and puts it about the match with Sulitvan, and puts it up to Kennedy.

Harris, however, says he is still anxious to give Sullivan a match, and offers to have McGovern fight him either before a club or in private for \$5,000 a side. The champion's manager says Sullivan can have a match at any time.

RAILROAD UNIONS TO CONCENTRATE HERE.

Plan for the Consolidation Will Be Presented at Switchmen's Convention in May.

Prompted by the approach of the World's Fair and the consequent desirability of this city as a labor center, prominent men in the nine leading unions of steam railroad men are agitating a plan to institute permanent headquarters for all railroad unions in this city and to combine them under the name of the National Association of Railros Employes of America. It is thought that

this will bring together about 800,000 men. The foremost figure in the movement is F. Gaskill, a member of the Switchmen's Union of America, who lives at No. 1168 South Fourth street. Meetings have been held in East St. Louis since January 2 to promote the enterprise, and the subject will be brought up officially at the switchmen's convention in Milwaukee the third Monday

in May. Already assurances have been given by leaders in the nine foremost radicand unions that the plan will be indorsed by those bodies and an informal body has already been organized to represent the matter in each union. J. F. Gaskill has been elected prest lent and general manager; L. W. Quick of No. 5081 Delmar boulevard, chief clerk of the Order of Railway Telegraphers, has been chosen secretary, and J. T. Wilson of No. 2212 Olive street, grand chief of the Order of Railroad Trackmen, has been ap-pointed president of the Executive Board. The other officers of the present organization are Robert Stevenson, treasurer, representing the Brotherhood of Locomotive Firemen; E. J. Graney, assistant general manager, representing the Railroad Clerks' Union; A. Lamont, division superintendent, representing the Order of Rail-

intendent, representing the Order of Railway Conductors; and Charles Turner, representing the United Car Men of America.

The officers of the new organization have already received assurances of support in the project from unions containing, all told, more than 100,000 men.

The enterprise has been started in connection with the movement of the railroad employes to establish a building at the World's Fair. It is proposed to procured, permanent location within the fair Grounds, by purchase if necessary, and to establish there a building which will serve both as an exhibition and assembly building during the Fair and as a permanent headquarters for the railroad men thereafter.

J. F. Gaskill was the originator of the J. F. Gaskill was the originator of the movement and has already applied for space in the World's Fair grounds. The movement to establish permanent headquarters here is already so strong that the promoters feel little doubt of its success and say that the assurances they have already received will make the affair a success beyond question. The Switchmen's Union, Mr. Gaskill says is already making arrangements for a private car, to be sent to the convention in Milwaukee, the travelers in the car to represent the centralization project, and to deliver speeches along the road. It is believed that a larger number of railroad men can be made to see the advantages of the scheme by this plan than by the issuance of circulars.

PASSED BY THE SENATE.

Maryland "Disfranchisement" Bill Goes Back to House.

Annapolis, Md., March 14.—The Deno-cratic majority in the Senate, after a tea-ous session lasting from 11 a. m. until p. m., aided by the application of the clo-ture rule, succeeded in passing the "dis-franchisement" bill to-night by a voice of 14 to 11, a strict party division.

It now goes to the House for concur-rence in the Senate amendments. The con-sensus of opinion is that no further ob-stacle will be placed in its way, and that it will go to the Governor to-morrow night for his signature.
